Keep your
house / factory buildings
cool even during peak summer
with

EXCEL CoolCoat®

India's Leading and Highest Exported
Heat Reflective Cool Roof Paint

**Reflects sun's heat and
Reduces Roof Temperature
up to 22 °C**

**Reduces Internal Temperature
up to 9 °C**

* temperature reduction varies based on various factors like intensity of sun's heat,

India's first Triple Action Technology

Advanced nano UV protection

Power Saving Upto 30%

Excellent Adhesion To Various Surfaces

Eco-Friendly & Green Certified Product

Affordable, Low Maintenance And Extends Life of the Roof

Triple Action Technology

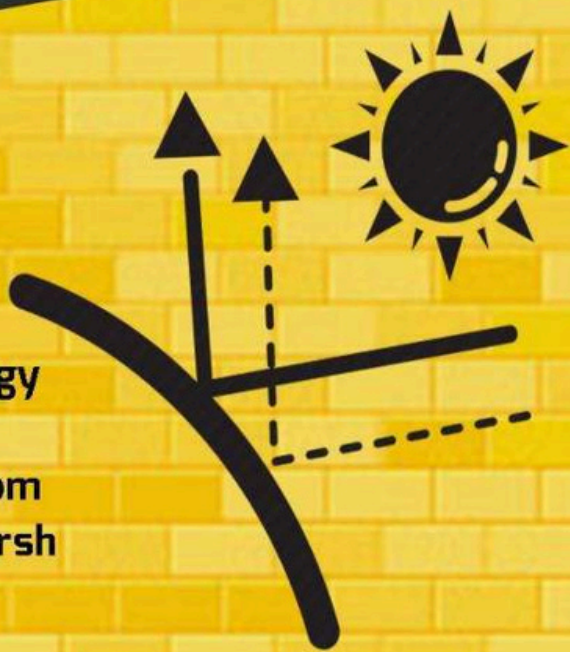

Insulation

Superior Aerospace grade insulation to deliver excellent protection even in harsh dusty conditions.

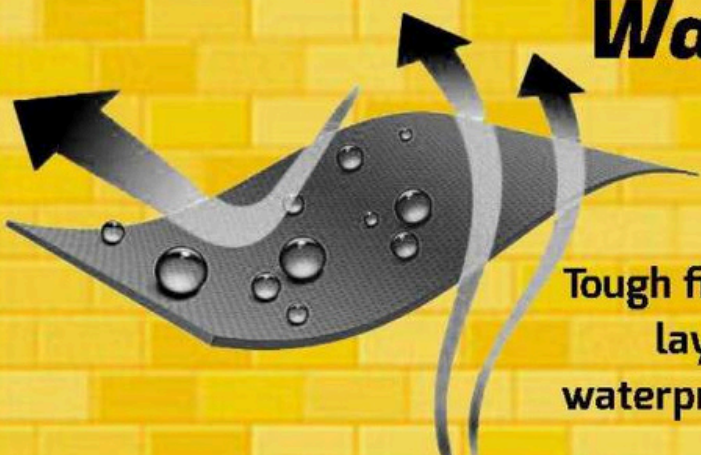

Reflection

Advanced IR reflection technology reflects the sun's heat and protects the coated surface from getting heated up even under harsh sunlight conditions.

Waterproofing

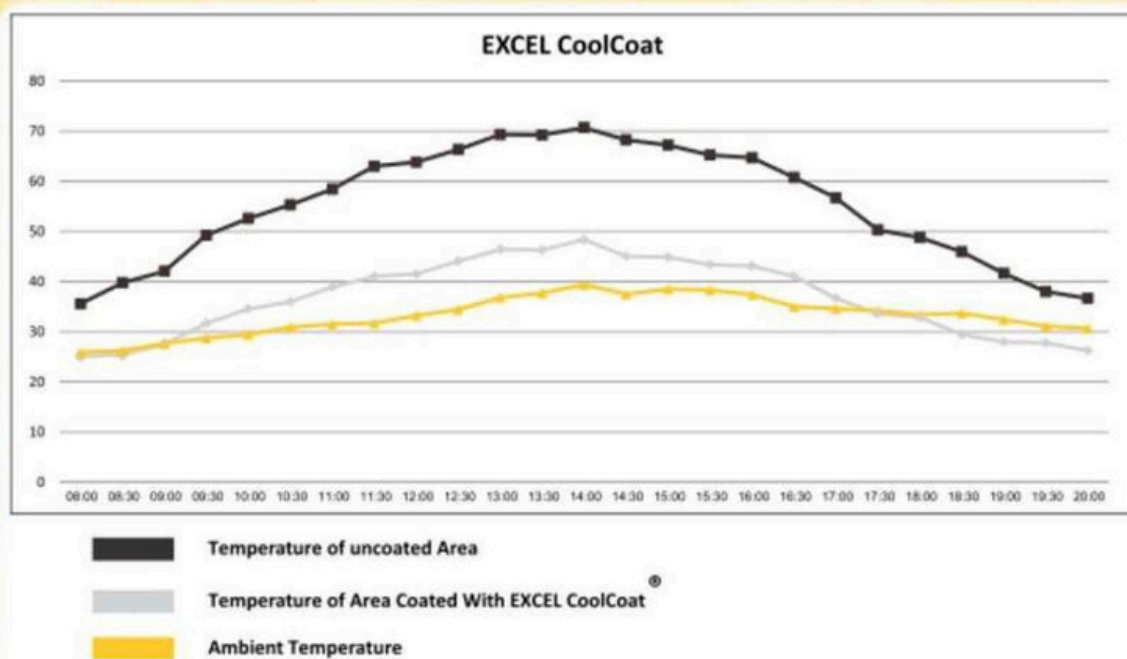

Tough fiber reinforced water tight layer provides excellent waterproofing and crack bridging.

Performance Report

Comparative thermal performance of EXCEL CoolCoat on roofing materials.

Temperatures recorded from 8 am to 8 pm.

Ambient Temperature 40°C

Coated Roof Temperature 48°C

Uncoated Roof Temperature 70°C

Temperature difference of around 22 °C note between the coated and uncoated surface.

Temperature reading taken at a client's site after 1 year of coating.

***Temperature of
Uncoated Roof
66° C***

***Temperature of
Roof Coated With
EXCEL CoolCoat
48° C***

Consistant performance noted even after a year

**18 °C temperature difference acheived
between coated & uncoated area**

Why Choose US ???

**Nano Based
Green Product**

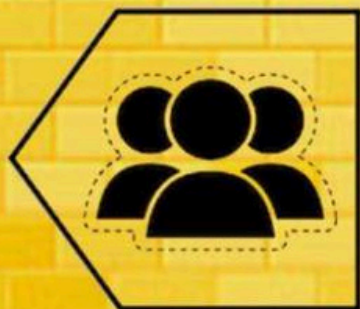

**13+ years of
market presence**

**International
Quality Certified**

**Highest exported
Cool Roof Paint Brand**

**Strong Dealer
Network**

**International Award
for best manufacturer**
